

Dear Year 10,

It's been amazing to see that so many of you have secured virtual work experience, from 5th-7th July. Well done! The most popular placements seem to be Medicine, Law, Engineering and Psychology but there is a wide range of industries represented.

Some of you have also opted for Open Learn Sessions organised by the Open University. The OU offer a huge range of short, free courses, which will increase subject knowledge and current affairs related to the industry you are interested in, so it's definitely worth have a look. <https://www.open.edu/openlearn/>

As Mrs Meader mentioned in her email of this morning, if you haven't found a work placement yet, it's now the time!

It needs to be :

- for 14 hours
- completed at home
- carried out between the 5th and 7th July.

2 of these hours can be the Morrisby test, information about this has been sent home to your parents. When you logon to Morrisby, please make sure you use your school email.

Once you have found work experience, can you please fill in the attached google form as we need to have details for our records. [Click link](#).

If you have any queries regarding the above, please send me an email.

Caroline Green

Careers Assistant/Trips Administrator

(in school from Tuesday to Thursday)
