

## **CAREER RIDDLES – WHO AM I?**

### **RIDDLE ONE**

First thing in the morning, I read out a long list of names, after a couple of hours we go outside in the fresh air. During the day I tell certain people lots of new things about history/geography and much more. I often read a story and do lots of craft. I am very lucky as I have many weeks of holiday each year. I am bright, bubbly and have lots of patience. Teacher

### **RIDDLE TWO**

I use a calculator every day and look at long lists of figures, using the numbers and financial statements to paint a picture of an organization. I like Maths and numbers. I am methodical and can work in a team or on my own.

### **RIDDLE THREE**

I wear a blue overall each day and provide support and reassurance to a huge diversity of women, the ladies I help are “bigger” than normal. Sometimes they are excited, sometimes they are a little scared but after a few hours they are happy because they can cuddle someone very little. I work as part of a team, I am very caring, and good at listening and communicating.

### **RIDDLE FOUR**

I normally get very wet and wear flippers, a mask and carry an air tank. I look for very, very old items. I like swimming.

### **RIDDLE FIVE**

I spend the summer in the country, looking for protected species such as badgers and bats, I normally have a camera and a notebook/pen with me to make notes. In the winter I sit behind a desk and write reports. I am passionate about wildlife and the environment.

### **RIDDLE SIX**

I wear a wig when I am at work and deal with legal issues. I listen to what the witnesses have to say and look at all the evidence. I have a commitment to impartiality. Judge

### **RIDDLE SEVEN**

I design either all sorts of machinery or anything from skyscrapers to tunnels underground. I might work in an office or out in the towns or countryside where I would probably need to wear a hard hat. I need to be able to oversee projects and work in a team. I must pay attention to detail and able to handle stressful situations. Construction worker

### **RIDDLE EIGHT**

I sometimes conduct research and work on a variety of projects, I manage laboratory teams. I also work in an office, preparing technical reports and presenting my findings. I may have to analyze enzymes, DNA and other molecules. I often wear a white coat. Scientist
